

The Leading Edge in Industrial Solutions

For over five decades, Electrex Industrial Solutions has provided unmatched expertise and innovation to design, install, maintain, and service systems for business partners of all sizes.

Electrical Contracting – Our licensed experts and electricians will bring their best-in-class knowledge and experience to all aspects of your commercial, industrial, and institutional electrical design and construction projects—including Primary Voltage, Power Distribution, New Construction, Production & Processing Lines, Machine & Equipment Connections, and Preventive Maintenance Service.

Back-Up Power Generation – Are you ready for the next electrical emergency or power disruption? With industrial generators and back-up power systems installed by Electrex, your operation can stay running without interruption during power outages. We'll prepare you for any electrical emergency or power disruption with Back-Up Generators, Temporary Generators, and Uninterruptible Power Supplies. With over one hundred back-up generators installed in the past ten years alone, our track record speaks for itself.

Process Piping – Call upon our expertise to supply your facility with all the piping your machines need to run cleanly and efficiently. Electrex personnel have installed miles of piping on countless jobs, and our experts are responsible for supplying machines with a steady, reliable flow of fluid and air for power, cooling, and lubrication.

Support Services – At Electrex Industrial we pride ourselves on your complete satisfaction before, during, and after your project. Our exhaustive list of support services ensures you get the help you need, when you need it. Our services include:

- Turnkey Industrial Contracting
- Design / Build
- Project Management
- Preventative Maintenance
- 24 Hour Emergency Service for our customers
- DTE Preferred Lighting Contractor

**Let our professionalism and expertise be the solution
for your power supply needs.**
